Experience

10 Jun 2022 to 11 Feb 2023
Exytex Technologies, Taxila, Pakistan
Front End Developer

- Led the front-end development of responsive and user-friendly web applications using HTML5, CSS3, and JavaScript.
- Ensured cross-browser compatibility and optimized performance for seamless user experiences.
- Proficient in utilizing front-end frameworks such as React.js and Angular.js to create dynamic and interactive user interfaces.
- Integrated third-party APIs to enhance functionality and data exchange.
- Utilized Git for version control, maintaining a clean and organized codebase with frequent commits and branches for feature development.

14 Jun 2023 to 31st April 2024
Minhal Grand City Enclave, Haripur, Pakistan
Full Stack Developer

- Development of web applications(company's official website), handling both front-end and back-end responsibilities.
- Implemented responsive and intuitive user interfaces using HTML5, CSS3, and JavaScript frameworks such as React.js.
- Designed and developed robust server-side logic, and database structures using technologies like Node.js, and Laravel.
- Implemented continuous integration and continuous deployment (CI/CD) pipelines to automate testing and deployment processes.

20 September 2023 to Current
Codiro Technologies, Taxila, Pakistan
Remote React Developer

- Developed and maintained front-end components using React.js, creating dynamic and responsive user interfaces for web applications.
- Demonstrated the ability to work independently, taking ownership of tasks and solving complex technical challenges in a remote setting.
- Managed and prioritized tasks effectively to meet project deadlines.
- Integrated RESTful APIs and third-party services into React applications to enhance functionality and data exchange.
- Ensured seamless communication between the front-end and back-end systems.
- Utilized Git for version control, ensuring a collaborative and organized development process.
